```java
//input a sentence and find the frequency of a charachter
import java.util.*;
import java.io.*;
public class question19
{
    public static void main(String args[])
    {
        String str = "";
        char c;
        int count = 0;
        String res="";
        Scanner sc = new Scanner(System.in);
        System.out.println("Enter Statement:");
        str = sc.nextLine();
        System.out.println("Find frequency of->");
        char freq = sc.next().charAt(0);
        for(int i=0;i<str.length();i++)
        {
            if(str.charAt(i)==freq)
            {
                count++;
            }
        }
        System.out.println(count);
    }
}
```
